Gary Conachan
Triton Custom Homes Inc
519 Main Street South
Desert Aire, WA 99349

Dear Gary,

We want to take this opportunity to let you know how pleased we are with our new home which we moved in permanently June of this year.

At first we were hesitant to begin construction when we could not be on site except for weekends. We all hear the horror stories about delays, shoddy work and short cuts. We did our homework before selecting Triton Custom Homes and even knocked on doors to talk to homeowners. We never heard a single negative comment about Triton. And after a few meetings with you we could also see you took pride in your work and we could rely upon you to keep us informed with the progress.

The entire design and build process went along smoothly and without one hitch, and all because of you Gary. You led us down the path with design suggestions and material selections to create a one of a kind custom home. You made daily telephone progress reports and always made sure you were available to meet us at the job site.

The quality of the workmanship was A+ and met our expectations in every aspect. We expected quality, you delivered it and on time!

Your entire crew including Adam, Christine and your sub contractors always made us feel we were an important part of the process.

We've been asked if we would have Triton Custom Homes build us another house and we have always said yes without hesitation!

Gary, thanks to you and your crew we have a lovely home we thoroughly enjoy.

Sincerely,

Ray and Becky Burdine

PS: We miss those daily phone calls!
