

Thank you Triton Custom Homes for the amazing job you did building our dream home. We continually receive incredible compliments about the workmanship. The Triton team was very professional and a pleasure to work with throughout the entire project. The excellent craftsmanship exceeded our expectations. We had great communication during the entire process which for us was important considering we were 200 miles away. We were delighted when our home was completed on time and on budget with no surprises. The Triton team made building our home a fun experience. They have become more than custom home builders to us. We consider them good friends. We have been asked on more than one occasion if we would have Triton Custom Homes build us another home. Without hesitation our answer is always the same. Yes.

Sincerely,
Jeff & Robin Curtis
