Gary Conachan
TRITON CUSTOM HOMES
519 Main Street
Desert Aire, WA 99349

It is with pleasure I write this letter to you regarding Triton Custom Homes and the home you built for us in 2005. I can not believe we have lived in our home for six years and still love the home as much today as we did when we first moved in.

It was very stressful deciding on a contractor to build your dream home. We did our homework, looked at homes built by Triton Custom Homes and in the end decided to go with Gary's team. Gary was always there we talked daily keeping us informed of all aspects of the construction. He worked with us to get everything we wanted in our home at a price we could afford. Always providing quality workmanship and attention to detail in all aspects of construction.

We enjoyed working with Gary, Adam and Christine so much that we recommended and they built a home for my parents and a close friend. Should we ever build another home I would go straight to Triton Custom Homes. To this day Gary is still always available for any question or concern. Not only did Gary, Adam and Christine construct our home but they have become very good neighbors and friends.

I would recommend to anyone Triton Custom Homes. Their quality, construction and assistance in constructing your home is excellent.

Sincerely,

Diane Hanson
